FOREIGN PARENTAGE.

FOREIGN PARENTAGE.

Since 1850 the number of persons of foreign birth has been ascertained at each census of the United States.

In 1870 the number of persons, whether themselves born abroad or in the United States, one or both of whose parents were foreigners, was sought to be ascertained. The results showed that, while there were in that year 5,567,229 persons resident in the United States who were born in other countries, there were 10,521,233 residents who had a foreign father, 10,105,627 who had a foreign mother, 9,734,845 who had both parents foreign, and 10,892,015 who had one or both parents foreign. It will, of course, be understood that the last four sums are not to be added together for any statistical purpose. For example, the third sum, 9,734,845, is repeated four times, constituting a part of each of the other three sums given. The outside limit of foreign parentage is the last sum, 10,892,015, which comprises all persons either of whose parents were of foreign birth, and this number, it will be observed, includes all, or very nearly all, the 5,567,229 persons who were themselves born in other countries. If we say all, then there were 5,324,786 persons resident in the United States in 1870, and themselves born in the United States, who had a foreign father and a native mother or a foreign mother and a native father, or had both parents foreign.

The statistics of foreign parentage for 1870, however, gave no clew to the contribution made to this total by the several foreign countries appearing in the tables of foreign birth; *i.e.*, there was nothing to show how many persons had German fathers or German mothers, how many Irish fathers or Irish mothers, etc.

In compiling the census of 1880 a very elaborate tabulation was undertaken, in order to secure the ratios of contribution to the population foreign in the second degree made by each principal foreign country. For this purpose the populations of 28 states, 7 territories, and the District of Columbia were tallied according to a highly complicated form in order to secure the ratios desired. The results appear in the following table. A proper analysis and discussion of these figures would demand a space not consistent with the limits of the present publication, and the details will therefore be incorporated in the quarto volume on population.

The main facts are that in the body of population embraced in this table, comprising, as it does, 26,354,124 of the 50,155,783 inhabitants of the United States, there were 5,529,331 persons who had a foreign father, 5,223,497 who had a foreign mother, 4,994,017 who had both parents foreign, and 5,758,811 who had one or both parents foreign. The entire foreign element having been included in this tabulation, there appear 13,307 persons of foreign birth residents of the United States who had parents both native born.

It appears that for every 1,000 persons born in Ireland there were 2,442 who had an Irish father and 2,387 who had an Irish mother; for

every 1,000 persons born in Germany there were 2,483 who had a German father and 2,306 who had a German mother; for every 1,000 persons born in Great Britain there were 2,223 who had a British father and 1,941 who had a British mother; for every 1,000 persons born in Scandinavia there were 1,690 who had a Scandinavian father and 1,671 who had a Scandinavian mother; for every 1,000 persons born in British America there were 1,310 who had a British American father and 1,292 who had a British American mother; and for every 1,000 persons born in all other foreign countries there were 1,559 who had a father and 1,439 who had a mother born in countries other than those designated.

The application of these ratios to the total number of persons residing within the United States who were born in each of the specified foreign countries, according to the table of nativity (Table XXX), would indicate that throughout the United States there were, at the date of the census of 1880, persons having one or both parents foreign born, or foreign-born persons having parents both native born, as follows:

Total number of persons having Irish fathers	4,529,523
Total number of persons having German fathers	4,883,842
Total number of persons having British fathers	2,039,808
Total number of persons having Scandinavian fathers.....	635,405
Total number of persons having British American fathers.....	939,247
Total number of persons having fathers born in countries other than those specified	1,321,485
Total number of persons having native fathers and foreign mothers	573,434
Total number of foreign persons having both parents native.....	33,252
<hr/>	
Total	14,955,996
<hr/>	
Total number of persons having Irish mothers	4,448,421
Total number of persons having German mothers	4,557,629
Total number of persons having British mothers	1,790,200
Total number of persons having Scandinavian mothers.....	631,309
Total number of persons having British American mothers	931,408
Total number of persons having mothers born in countries other than those specified	1,226,113
Total number of persons having native mothers and foreign fathers	1,337,664
Total number of foreign persons having both parents native.....	33,252
<hr/>	
Total	14,955,996

The following table contains the results of the compilation of the statistics of foreign parentage in the states of Alabama, Arkansas, California, Colorado, Connecticut, Delaware, Florida, Georgia, Kentucky, Louisiana, Maryland, Massachusetts, Minnesota, Mississippi, Missouri, Nebraska, Nevada, New Hampshire, North Carolina, Oregon, Rhode Island, South Carolina, Tennessee, Texas, Vermont, Virginia, West Virginia, and Wisconsin; in the territories of Arizona, Dakota, Idaho, Montana, New Mexico, Washington, and Wyoming, and in the District of Columbia, embracing an aggregate population of 26,354,124, and a total foreign population of 2,673,217, distributed among the several principal foreign nationalities as follows: Irish, 686,322; Germans, 661,369; British, 302,484; Scandinavians, 218,165; British Americans, 340,656; and persons born in other countries, 464,221.

TABLE CIVIL.—*Parentage of the total number of persons in the United States having one or born, with summaries for 35 states and territories*

AREAS, DWELLINGS, AND FAMILIES.

1411

TABLE CVIII.—*Areas, dwellings, and families: 1880.*

A—AREAS, LAND SURFACE.

NOTE.—The discrepancies between the following table and a similar table at the Ninth Census as to areas and the number of persons to a square mile are due to the fact that recomputed areas of the states and of the United States have been used at the Tenth Census.

States and Territories.	1880.		1870.		1860.		1850.

ALASKA.

1419

DEPARTMENT OF THE INTERIOR,
CENSUS OFFICE,
Washington, D. C., December 28, 1882.

Col. CHAS. W. SEATON,

Superintendent of Census, Washington, D. C.

SIR: In conformity with your suggestion, I have the honor to transmit herewith, for incorporation in the Compendium about to be published, such tables as I have been enabled to compile from the material collected during my personal investigations in Alaska, showing the population of that district by races and tribes. The Caucasian population of southeastern Alaska appears in these tables as it stood in 1880, previous to the more recent influx of miners and prospectors. For the purposes of my report, now in your hands, it has been found most convenient to divide Alaska into six geographical divisions, as follows:

1. The Arctic division, containing 125,245 square miles, and comprising all that portion of the North American continent between the 141st meridian in the east and cape Prince of Wales, or Bering strait, in the west, the Arctic ocean in the north, and having for its southern boundary the water-shed between the Yukon river system and the streams emptying into the Arctic.

2. The Yukon division, containing 176,715 square miles, and comprising the valley of the Yukon river as far as it lies within our boundaries and its tributaries from the north and south. It is bounded by the Arctic division in the north, the 141st meridian in the east, and Bering sea in the west. The southern boundary of this division lies along a line indicating the water-shed between the Yukon and the Kuskokvim, Sushetno, and Copper rivers, and running from the above-mentioned meridian in the east to the coast of Bering sea, in the vicinity of Hazen bay in the west. The island of Saint Lawrence, in Bering sea, is included in this division.

3. The Kuskokvim division, containing 114,975 square miles, bounded on the north by the Yukon division, and comprising the valleys of the Kuskokvim, the Togiak, and the Nushegak rivers, and the intervening system of lakes. The eastern boundary of this division is a line running along the main Alaskan range of mountains from the divide between the Kuskokvim and Tennanali rivers down to the low, narrow isthmus dividing Moller bay from Zakharof bay on the Aliaska peninsula. Bering sea washes the whole west and south coast of this division, which also includes Nunivak island.

4. The Aleutian division, containing 14,610 square miles, and comprising the Aliaska peninsula westward of the isthmus between Moller

and Zakharof bays and the whole chain of islands from the Shumagin group in the east to Attoo in the west, including also the Pribylof or Fur-Seal islands.

5. The Kadiak division, containing 70,884 square miles, the south coast of the Aliaska peninsula down to Zakharof bay, with adjacent islands, the Kadiak group of islands, the islands and coasts of Cook's inlet, the Kenai peninsula and of Prince William sound, with the rivers running into them. The main Alaskan range bounds this division in the north and west. Its eastern limit is the 141st meridian, which intersects the coast line in the vicinity of Mount Saint Elias, while the south shores of the division are washed by that section of the North Pacific named the gulf of Alaska.

6. The Southeastern division, containing 28,980 square miles, and comprising the coast from Mount Saint Elias in the north to Portland canal, in lat. $54^{\circ} 40'$, in the south, together with the islands of the Alexander archipelago between Cross sound and cape Fox. The eastern boundary of this division is the rather indefinite line established by the Anglo-Russian and Russian-American treaties of 1824 and 1825 respectively, following the summits of a chain of mountains supposed to run parallel with the coast at a distance not greater than three marine leagues from the sea between the head of Portland canal and Mount Saint Elias.

Very respectfully, your obedient servant,

IVAN PETROFF,
Special Agent.

TABLE CX.—*Statistics of the population of Alaska: 1880.*

1.—ARCTIC DIVISION.

Area, 125,245 square miles; ratio of population, 1 inhabitant to $40\frac{1}{2}$ square miles.

Settlements.	Location.	Innuit.
Total		3,094
Kingigamute	Cape Prince of Wales, Bering strait	400
Inailit	East Diomede island, Bering strait	40
Village opposite on mainland	Arctic ocean	18
Ta-aplik	Cape Espenborg, Kotzebue sound	42
Kugalukume	Kotzebue sound	12
Kongigamute	Buckland river, Kotzebue sound	90
Selawigamute	Selawik lake, Kotzebue sound	100
Kikiktagamute	Kotzebue sound	200
Sheshalegamute	Kotzebue sound	100
Tikizat	Arctic ocean	75
An-iyakh	Arctic ocean	25
Cape Sepping	Arctic ocean	50
Ip-Not	Arctic ocean	40
Tikiruk	Arctic ocean	276
Cape Dyer	Arctic ocean	15
Cape Lisburne	Arctic ocean	13
Point Lay	Arctic ocean	30
Otok-kok	Icy cape, Arctic ocean	50
Kolumatouruk	Arctic ocean	45
Noona-agamute	Arctic ocean	74

TABLE CX.—*Statistics of the population of Alaska: 1880—Continued.*

1.—ARCTIC DIVISION—Continued.

Settlements.	Location.	Innuit.
Ootkaiowik	Arctic ocean	55
Pinosburagin	Arctic ocean	29
Ootivakh	Arctic ocean	225
Refuge inlet	Arctic ocean	40
Kokmullit	Point Barrow, Arctic ocean	200
Colville river	Arctic ocean	50
<i>In the interior.</i>		
Koo-agamute villages	Kooak river	250
Noatagamute village	Inland river	400
Killainute villages	Kok river	150

2.—YUKON DIVISION.

Area, 176,715 square miles; ratio of population 1 inhabitant to $25\frac{2}{3}$ square miles.

Settlements.	Location.	White.	Creole.	Tinneh.	Innuit.	Total.
Total		18	10	2,557	4,276	6,870

FIRE AND MARINE INSURANCE.

DEPARTMENT OF THE INTERIOR,
CENSUS OFFICE,
New York, N. Y., January 9, 1883.

Hon. C. W. SEATON,

Superintendent Tenth Census.

SIR: I have the honor to transmit herewith the tables relating to fire and marine insurance prepared for the Compendium of the Tenth Census.

As the fiscal year of nearly all insurance companies ends upon the 31st of December, it was deemed advisable to use the year 1879 as the decennial year for this branch of the census work; hence the reports rendered by the companies were made up to December 31, 1879, with a few exceptions where the fiscal year ended after that date, but prior to June, 1880. By this means the companies were enabled to furnish more complete and reliable statements.

The appended tables or abstracts offer a condensed view of the general results of the fire and marine insurance business in the United States for the year ending December 31, 1879, viz:

Table CXVII gives a classification of all the fire and marine insurance companies doing business in the United States on the 31st of December, 1879, with the number of companies in each class organized in each state; the several plans of effecting insurance in use, and the number of companies of each class in each state transacting business on each plan; the number of companies having a joint-stock capital; the amount of capital authorized; and the amount paid up in cash or secured notes.

Table CXVIII shows the assets of each class of companies in each state, giving the amount invested in real estate; bond and mortgage (first liens); United States bonds and securities; state, county, and municipal bonds and securities; railroad, canal, and other miscellaneous stocks and bonds; cash loans secured by collaterals; and the premium-note assets held by the mutual companies of the country.

Table CXIX gives the liabilities of each class of companies in each state, exhibiting the cash liabilities; the contingent liabilities, or reinsurance reserve fund; the policy holders' surplus; the amount of capital of each class of companies; the surplus over the capital liability; and the net assets or surplus as between the cash liabilities and ledger assets.

Table CXX is an exhibit of the total cash income, including the amounts received from premiums, investments, and increased capital, and the total cash expenditures, including losses, dividends, and expense of management.

Table CXXI gives the number of companies of each class in each state, showing a surplus or deficit as between ledger assets and policy holders' liability, capital liability, scrip liability, and, for mutual companies, the surplus or deficiency between cash assets and cash liabilities.

Table CXXII shows the amount of fire and marine and inland risks written during the year 1879; the amount and average rate of premium charged therefor; the amount of losses incurred during the year; and the amount of risks in force at the end of the year.

Table CXXIII is an exhibit, by percentages, of the relations of the leading phases of the business, as represented in the tables, to each other.

As the results of the investigations of the fire and marine insurance business will be elaborated in the full report of the census, care has been taken to show in the appended tables only the more important features of the financial condition of the companies and their business transacted during the census year.

Very respectfully, your obedient servant,

CHAS. A. JENNEY,

Special Agent,

92 C 0

a The taxes of townships are not included in this sum. Township officers, in so many cases, combined the school-district taxes with those of the township proper that it was found necessary to ignore the reports made by them. The taxes of the township proper thus omitted in the detailed exhibit of states and in the above summary are estimated as follows: Indiana, \$1,500,000; Illinois, \$5,302,605; Wisconsin, \$1,750,000; Iowa, \$800,000; Minnesota, \$640,349; Kansas, \$564,829. These amounts being added to the taxes of corporations exhibited in the tables give the following sums as the total taxation of minor civil divisions for local purposes: Indiana, \$5,818,638; Illinois, \$16,112,026; Wisconsin, \$5,134,882; Iowa, \$5,954,229; Minnesota, \$2,275,769; Kansas, \$2,035,633; and for the group of Western States, \$60,999,071. The total taxation of the states under consideration is thus increased

to the following amounts (the total of Minnesota being further enlarged as explained afterward): Indiana, \$12,843,630; Illinois, \$24,586,018; Wisconsin, \$7,588,325; Iowa, \$11,061,605; Minnesota, \$4,346,300; Kansas, \$4,979,650; and the grand total of the group of Western States to \$129,117,979. The total taxation for the United States of minor civil divisions for local purposes is thus increased to \$191,031,951, and the grand total of all taxation for the United States to \$315,759,721. It is to be noted in regard to Minnesota that a special state tax (not shown in the tables) laid in the census year upon certain counties, known as the "seed-grain" tax, amounting to \$92,244, is likewise included in arriving at the total taxation of that state.

TABLE CXXV.—*Assessed valuation, and state, county, city, etc., taxation, by counties.*
NEW ENGLAND STATES.

MAINE.

NOTE.—The table exhibits the state valuation of 1880. The taxation is for the year ending March 1, 1882, being the first based on this valuation.

NEW HAMPSHIRE.

NOTE.—The table covers the fiscal year ending March 1, 1880. The valuation as equalized by the state board is used. This board, in adjusting the valuation of property throughout the state, apply an increase or decrease, whenever needed, to the local assessment. In doing this they deal with values in the aggregate only (real and personal combined). As it is not known to the Census Office what amount in each county is applied to one or the other class, it was thought best to add one-half to each, or deduct one-half from each, as might be indicated. This plan of procedure had the approval of Hon. A. B. Thompson, secretary of state. It will be seen, then, that the total valuation for every county is correct, while the subdivision is only approximately correct. The aggregate of state tax is \$4,508 less than is reported by the state treasurer. To account for this it should be stated that abatements, in all amounting to \$4,600, have been allowed in several towns, and also that the town of Livermore is charged with a tax of \$152, this town being omitted in the treasurer's report.

MASSACHUSETTS.

NOTE.—The table is for the fiscal year ending in the spring of 1881, the valuation being made May 1, 1880, and given as reported to the Hon. Henry B. Peirce, secretary of state. The local reports of valuation sent to the Census Office differ from it in only a few towns, and very slightly in those instances. The amount of state tax given is \$1,182 more than was apportioned to the towns by the legislature, which is accounted for by the amounts reported from two newly incorporated towns, viz: Cottage City, Dukes county, \$867; Hampden, Hampden county, \$315. The county taxes of Dukes and Hampden counties are increased beyond the legislative grants for a similar reason.

NEW JERSEY.

NOTE.—The valuation given is the gross valuation of 1880. The net valuation for taxation is the gross valuation less an allowance for the debts of the persons taxed, which amounted in 1880, in round numbers, to \$55,000,000. The state taxes given are those levied on the valuation of 1879.

TABLE CXXV.—*Assessed valuation and taxation—Continued.*

PENNSYLVANIA.

NOTE.—The tables exhibit the valuation of all real and personal property that is taxed for state or county purposes. For the purposes of county and local taxation a valuation is made of "salaries, emoluments of office, posts of profit, trades, occupations, and professions". The total amount of such valuation in the state is \$68,659,530. This is not included in the tables.

TABLE CXXV.—*Assessed valuation and taxation—Continued.*
SOUTHERN STATES.

VIRGINIA.

NOTE.—The table is for the fiscal year ending September 30, 1880. The valuations and amounts of taxation set against counties are the sums for the entire area covered by the county, inclusive of cities and towns governed by special laws. This remark would be unnecessary were it not that these corporations pay taxes directly to the state.

TABLE CXXV.—*Assessed valuation and taxation*—Continued.

GEORGIA.

NOTE.—The table is for the fiscal year ending September 30, 1880. The school tax of \$1 on polls, although known locally as a county tax, since the proceeds are retained in the counties, is here considered a state tax, as the rate is uniform, and the levy obligatory throughout the state. In twelve counties the county tax is given for the year ending September 30, 1879, as returns for the year 1880 were not accessible. The following are the names of such counties: Appling, Baker, Bryan, Coffee, Columbia, Dodge, Dooly, Jefferson, Madison, Pickens, Spalding, and White.

State and coun- ties.	ASSESSED VALUATION.			TAXATION.			
	Real estate.	Personal prop- erty.	Total.	State.	County.	City, town, and village.	Total.
	Dollars. 139,983,941	Dollars. 99,483,658	Dollars. 239,472,599	Dollars. 1,075,099	Dollars. 1,076,421	Dollars. 1,055,483	Dollars. 2,207,008

TABLE CXXV.—*Assessed valuation and taxation—Continued.*

ARKANSAS.

NOTE.—The valuation is that of 1870. There is a poll tax of \$1 devoted to school purposes, which is retained in each county where collected, but is considered as a state tax in the table, since its levy is obligatory and its rate equal throughout the state. The amount of this poll-tax levy is \$153,406.

TABLE CXXV.—*Assessed valuation and taxation—Continued.*

INDIANA.

NOTE.—The table is for the fiscal year ending October 31, 1880. The valuation is given as reported by the state board of equalization. The [civil] township taxes for roads and other strictly township purposes are not given for the same reason as is stated in regard to Illinois. It is probable these would amount to as much as \$1,500,000, which would increase the total taxation in the state to about \$12,343,630. In addition to the notes preceding the table for Illinois, see the foot-note on summary table, page 1508.

TABLE CXXV.—*Assessed valuation and taxation—Continued.*

ILLINOIS.

NOTE.—The valuation is that made in the year 1880, and the taxes are based on this, the fiscal year ending September 30, 1881. The taxes of the township proper are not shown in the table. This is for the reason that the township schedules were so generally misunderstood by local officers that it was found impossible to use them without duplicating other taxes to a great extent. See the foot-note on summary table, page 1508. The total township taxation for the state is estimated to be \$5,302,605. This sum, added to \$19,283,413, given in the table, makes the total taxation for the state \$24,586,018.

TABLE CXXV.—*Assessed valuation and taxation—Continued.*

MICHIGAN.

NOTE.—The tabular exhibit is for the year 1870. The assessed valuation of the townships in Michigan have been compiled from copies kindly furnished this office by the auditor-general of the state of official returns made to his office by the clerks of the several townships. A few townships were not represented in these returns; a few others were represented by returns more or less defective. These omissions or defects were corrected as far as possible by correspondence with officials, but it became necessary finally to resort, in some instances, to estimates based on returns of other years than the census year. There also remains a doubt, which it has been found impossible to resolve, whether in every instance, the town clerks of townships within which incorporated villages lie have included in their returns the valuations of those villages. The upward limit of possible error from this source is believed, upon a careful examination, to be \$1,000,000, or about one-fifth of one per cent of the total valuation of the state.

The tax of one mill for the support of common schools, though not considered locally a state tax, is tabulated as such, since the rate is uniform and the levy compulsory in all parts of the state.

WISCONSIN.

NOTE.—The valuation and taxation are for 1879. Town taxes, estimated for the state at \$1,750,000, are omitted. For explanation, see foot-note, page 1508. Some cities and villages have included their state and county taxes with their local taxes, thus making a small amount of duplication.

TABLE CXXV.—*Assessed valuation and taxation—Continued.*

IOWA.

NOTE.—The table is for the fiscal year ending December 31, 1879. Township taxes are omitted. For explanation, see foot-note, page 1508. It is probable that the amount of such taxes would be about \$800,000, making the total taxation \$11,061,605.

TABLE CXXV.—*Assessed value and taxation—Continued.*

MINNESOTA.

NOTE.—The table is for the year ending November 30, 1880. The state tax is inclusive of the tax of one mill for the support of common schools. This is not considered locally a state tax, but as the rate is uniform throughout the state and the levy obligatory, it is here treated as such. The township tax is not exhibited in the table for the same reason as was given in the case of Illinois. It amounted to \$640,349. There was also a special state tax, known as the "seed-grain tax", amounting to \$92,244, which is not included below. These two sums added to the total taxation there shown make the grand aggregate \$4,346,300. See foot-note to page 1508.

TABLE CXXV.—*Assessed valuation and taxation—Continued.*
KANSAS.

NOTE.—The valuation is that of 1880, upon which the taxes shown were assessed. The township taxes are not included in the table. For explanation, see foot-note, page 1508. The total amount of township taxes, as reported by the state auditor, is \$564,829, which, being added to the taxes given in the table, makes the aggregate of taxation \$4,979,650.

a Partly estimated.

NEVADA.

NOTE.—The table exhibits the valuation of 1879, and the taxation based upon it (for 1880). The statutes provide for a poll tax of \$4, one-half the revenue of which goes to the state and the other to the counties. The amount of this in 1880 is not known, and, therefore, is not included, but in 1879 it was about \$62,000, or \$31,000 for the state and an equal amount for the counties.

OREGON.

NOTE.—The gross valuation made use of was for the year 1880. This valuation makes no allowance for the amount of indebtedness owed by individuals within the state and for exemption of household property. The indebtedness and exemptions obtained were for 1879. These were deducted from the gross valuations to secure the results shown in the table, the subtraction being made from the personal property in all counties except Clackamas, Douglas, and Jackson, where it was taken out of the real estate, the personal property not being sufficiently large to admit of such diminution. The total amount of deductions thus made was \$20,554,473 for indebtedness and \$4,843,937 for exemptions. The taxation is for the year 1880, and is based on the valuation of 1879 (\$46,422,817). The three-mill tax for the support of common schools is locally considered a county tax, but as the rate is uniform and the levy obligatory throughout the state, it is here treated as a state tax.

a The total valuation is correct, but the division into real estate and personal property is estimated.

b The poll tax is estimated at \$500.

TABLE CXXV.—Assessed valuation and taxation—Continued.
CALIFORNIA.

NOTE.—The fiscal year considered in the table is the one closing June 30, 1879. The valuation for the following year was: Real estate, \$436,557,491; personal property, \$111,065,276; total, \$547,622,769; and the total valuation a year later (ending June 30, 1881) was \$665,262,674. There is in California a poll tax of \$2, devoted to school purposes. This is not included in the tabular exhibit, as it was found impossible to obtain the correct figures; but the amount of the collections for the year ending June 30, 1881, was \$316,869. It is probable that this amount represents very nearly the revenue from this source for the year ending June 30, 1879. This sum, therefore, less \$69,418 (see what is said of taxes of San Francisco further on), may properly be added to the amount of state (or county) school tax given in the table. Under the old constitution this was locally held to be a county tax, since each county retained for its own use whatever accrued therefrom. Under the new constitution it has been made a state tax proper, and is paid into the state treasury. The amount derived from poll taxes in San Francisco, being known (\$69,418), is included in the \$189,109 of school-district taxes. The county and city of San Francisco are identical in area, and all local taxes are embraced in the city and the school-district taxes.

WYOMING TERRITORY.

NOTE.—The table is for the year 1880, except in regard to school-district taxation, which is for 1879. The tax known locally as the county school tax is tabulated as a territorial tax since the rate is made uniform by statute throughout the territory and its levy obligatory.

Territory and counties.	ASSESSED VALUATION.			TAXATION.			
	Real estate.	Personal prop- erty.	Total.	Territorial.	County.	City, town, vil- lage, and school districts.	Total.
